

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. I also telecommute from home and with this law in place, it saves me time during the week. I will be sadly disappointed if this law is changed. I also have an unlisted number which I pay alot for. Just with the unlisted number we were receiving a lot of unwanted calls. We love the Telephone privacy act and do not want to see it changed (except to make it so NO ONE could solicit to us). But we are happy with it the way it is.
